

Caregiver Interview

Family Issues and Concerns

30. (Interviewer: Ask parent/caregiver to describe how the following health issues affect the family and the children.)

a. Is anyone in the family ill? (If yes: What type of illness? Is the person being treated?)

b. Has there ever been a family member who became dependent on alcohol or other drugs? Is your family dealing with something like that?

Please note that portions of this form have been blurred intentionally.

c. Do you or anyone in your family have a condition with symptoms of anxiety or depression that might be making you or someone else in your family have to deal with something like that?

d. Do you have any health-related family members living in a neighborhood you feel safe in?

e. Do you have any health-related family members living in a neighborhood you feel unsafe in?

f. Do you have any health-related family members with an alcohol or substance problem, like an addict?
